CAN CAREWORKS PROVIDE STATISTICS THAT WILL SATISFY MY BOARD MEMBERS?

I think the answer to that is a resounding “YES, it can”!

The **Profile Report** in CareWorks has many of the required statistics, but sometimes the Board of Directors wants more than it can provide.

What is it that they need to know? Do you find that you have to account for your administrative time as well as your Volunteers’ caregiving time and mileage? Do they need more specific information about the population that you serve—perhaps specific income levels, disabilities, or referral sources? Do they need more specific information about the services that you provide—perhaps which destinations are most frequented in the Transportation category?

If you already have MS Access installed on your computer as part of MS Office, then I can probably help you design some “custom” reports or queries using data that is already in CareWorks or can easily be added to it.

Let me help you satisfy your Board Members thirst for knowledge about your program!

WHAT’S THE SCOOP WITH VERSION 4 & WINDOWS 7?

Well, we have taken all of your

suggestions and ideas, consolidated them and are still striving to get them implemented in the not too distant future. We might need to do a fundraiser to pay for the improvements and enhancements, but it will be worth it!

Also, we have had a few requests regarding whether or not CareWorks will work on **Windows 7**. At this moment, we realize that it is not successful on that operating system and we will have to address that right away.

FUNDRAISING IDEAS

I still think that one of the most lucrative sources that can be tapped into is the Honorarium/Memorial Fund for a particular Receiver. It seems that families are so grateful to Faith in Action programs for the help that they provide for their loved one, whether it be visiting, reassurance calls or transportation to the doctor’s office or church.

It’s very possible that these families often don’t even realize how many programs operate on a shoestring budget, so you can think about how you can make it easier for them to give.
